**Subject:** Confidential: Draft Response to ATSDR Health Consultation  
**Attachments:** Dimock ATSDR HC Response 32213 Draft.doc

Hi all,

Attached is my draft response to ATSDR's Health Consultation re. Dimock Groundwater Sampling.

I was unsure of the format (i.e., who would be the signatory) so I just focused on drafting a response to the Recommendations and Next Steps of the report.

I was unable to connect with Kelly Chase, but would like to add to our response (if useful) what we know about the wells ATSDR has identified as needing further action. Were the wells being used for drinking water and/or did they have treatment systems?

Mathy said that this response was to be ready by the 29th, so I apologize that your feedback is needed quickly (i.e., Monday).

Thanks,

Janine
